Hi [REDACTED]

Thank you for your email. Unfortunately I'm not the deputy for the area, but I'm Ccing my colleague Juan Fregoso who covers Echo Park. Juan, please e-meet Planaria and see the below email.

Best,

Dan Halden
Director, HEART of Hollywood
Councilmember Mitch O'Farrell
City of Los Angeles, 13th District

Hi Daniel,

A neighbor suggested I tried contacting you. I have filed reports with 311 but to no avail.

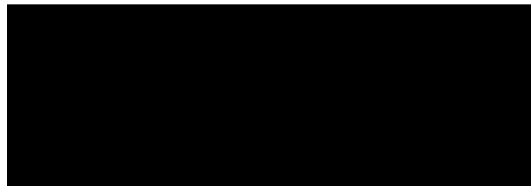

It is not just that there is a homeless encampment on the little hill just north of the back of Taix restaurant. I, for one, feel horrible that in this rich country we allow people to go without the help they need. But for the past year, the people have been burrowing under the street off of Sunset that leads to the back of Taix.....so sorry.....don;t know the name maybe it too is Reservoir.

But if you go east down Reservoir toward Glendale Blvd. you will see what I am talking about. The ground is almost totally removed and all that is now left are the concrete reinforcements. Even before our Big earthquake happens, I am afraid the whole hill will come down on top of those people.

I suggested to 311 that the encampment be removed and a chain link fence put up for the protection of those people: to keep them from living in that danger. .

I would think the city would get right on that. Not from the heart or caring, but it looks like a pretty huge lawsuit when that embankment goes.

Thanks so much for whatever help you can give to those people.

Daniel please help.....Juan has not replied to my emails and I tried 311 again (see below)

They are digging underneath the BRIDGE that goes over Sunset with Glendale Blvd underneath. Am I crazy or is a catastrophe looming?. You can easily walk , from Mitch O'Farrell's Sunse

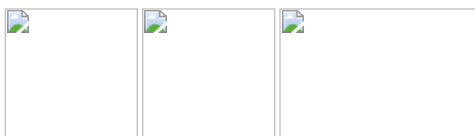

This is NOT about homeless encampments. It's about public safety. I don;t know where else to turn.

This location is going through the authorization process for a full service day.

Once we get authorization from Sanitation and a service day this location will be scheduled for service.

Once we get a scheduled date, we will ask the up the Bureau of Engineering investigate and confirm there is no structural damage.

Thank you for reaching out to our office, I can pass along any information I can share as soon when I get it.
